

# Camp Adair

2 - 6 May 2016

# Yolande Franke

Welcome and Introduction

# Sarah Baleicakau

Camp Objectives: To provide a learning experience that extends beyond the four walls of the classroom. The links students are able to make between the classroom and real world experiences can be critical to their long-term learning.

We want to extend student's learning experiences beyond the classroom, we need to take advantage of the opportunities offered by the wider community and the environment.

Howick recognises that students need to learn in a variety of contexts in order to gain the knowledge, skills, attitudes and values they can transfer into their lives to set them up for success.

# Curriculum Links

The principles of the NZ curriculum are embedded into each school's own curriculum and part of that approach happens outside the classroom.

## NZC

- **Vision** - we want our young people to be confident, connected, actively involved and lifelong learners
- **Principles** - Eg, high expectations, inclusion, learning to learn, future focus, these principles put students at the centre of teaching and learning, a curriculum should be engaging and challenging, to strengthen these principles we need experiences outside the classroom
- **Values** - Eg, excellence, equity, integrity, we always provide learning opportunities for these values to grow and develop in authentic situations
