

HOWICK INTERMEDIATE SCHOOL

Science Roadshow 2017

Monday 29 May, 2017

Dear Parents / Caregivers

The Science Roadshow is coming to Point View School on **Tuesday 27 June**. We have had the opportunity to book a session for 100 of our students from 9:10am - 10:30am. During this time, they will be able to participate in fun, exciting and interactive experiences.

The Science Roadshow is a mobile science discovery centre. It brings a range of interactive science and technology exhibits. This year the programme involves a 1 hour 20-minute session, which includes:

(a) Two 15 minute long shows:

- **Spectacular Changes** — “Energetic” physical and chemical changes
- **Hidden Worlds** — Exposing the “unseen” with special equipment

(b) A range of over 60 interactive exhibits under the following themes of: *Observations, Heat, Electricity, Gravity, Magnetism and Human performance.*

There is a small cost of \$12.00 per student and this will include the bus transport to and from the venue. We will be requiring a number of parents to accompany us as well.

If you would like your child to have the opportunity to be part of this educational and fun interactive science experience, please return the money and permission slip back to school as soon as possible. 100 entries will be taken on a first come, first served basis and we usually have a big demand for these opportunities.

Kind Regards

Bo Hensley
Science Curriculum Leader
